

## SPECIAL FEATURES

**Omega 99N Nuclear-Grade "Seize-Stop" Grease** is the "Super Advanced Formulation" that's specially mixed to out-last and out-perform any ordinary anti-seize compound.

- **Omega 99N** is 100% free of lead, sulfur and chlorides to help minimize stress and corrosion cracking of stainless steels and nickel alloys.
- **Omega 99N's** superior nickel-base make-up ensures it's the perfect solution for high-performance, anti-seize applications – stops metal seizure and makes maintenance & dismantling a snap!
- **Omega 99N** withstands acids, alkalis, water, salt air & most chemical fumes to provide remarkable metal surface protection.

## OUTSTANDING PROPERTIES

**Omega 99N** is the nuclear-grade non-seize grease that:

- Withstands searing temperatures as high as 1260°C (2300 °F) without degradation of treated parts' protection characteristics.
- Provides superior protection for stainless steel and high-nickel fittings.
- Eliminates setting problems common to ordinary non-seize compounds where metallic particles migrate and settle.
- Protects all types of assemblies, press fits and fittings while retaining corrosion-resistant properties.

## USE FOR

**Omega 99N** is the perfect solution for anti-seize applications in nuclear power plants and also plant and equipment using stainless steel and nickel alloy fasteners such as:

- Oil, Chemical and Natural Gas Refineries • Chemical Plants
- Pulp and Paper Mills • Waste Disposal Plants • Water and Saline Treatment Plants • Steam Plants • Marine Applications • On Ships • And more ...

**Omega 99N** can be effectively used in both stationary equipment and for mobile applications such as

- Cars • Jet Engines • Trucks • Buses • Diesel Gen-Sets • Mobile Cranes.
